After revisiting my schedule, the 28th or morning of the 29th would be better.

Thanks and happy 4th.

Thanks you, Sarah. Have an enjoyable vacation and July 4th weekend. You too, Randy.
 We will be in touch about meeting date, esp your preference for Jul 30.

John

John,

I'm attaching the model AOC, as well as the draft list of proposed actions that would be included in the time-critical removal action.

As I mentioned, the weeks of July 27 or August 3 would work for us for an in-person meeting. During the week of July 27, we are not available on Monday, but have a strong preference for Thursday, July 30. Please let us know what works, and Randy can confirm a date on our behalf while I am out.

We appreciate BNSF's cooperation thus far and look forward to a productive meeting.

Thanks very much.

Sarah

Randy and Sarah:

Thanks for taking the time to meet with us Tuesday. Sarah, you said you planned on sending me a generic form AOC -- not one tailored to the Haystack site -- before you leave for vacation. Having this form AOC will be extremely helpful to us in evaluating EPA's request that BNSF perform the time-critical removal. Any chance you can email it to me today?

We believe a further meeting that involves BNSF's technical folks is necessary. BNSF is considering EPA's request regarding the time-critical removal, and its environmental staff is key to that consideration and decision-making. I suggest we exchange a few dates in late July (after Sarah returns from vacation) or, if necessary, early August, for a follow up meeting of our environmental/technical team with both of you. Please let me know your availability for such a meeting.

Thanks again.

John
